

Partners in Hope

At the heart of Partners in Hope Corporate Giving program is the **HOPE** of healing for children who have experienced abuse and the **HOPE** that educational initiatives will lead to effective prevention.

Every child is filled with tremendous promise and we have a shared obligation to foster the potential for all children to thrive. For children who have experienced trauma, **HOPE** can be an incredibly important source of strength and comfort. Having **HOPE** gives children the courage and determination they need to keep moving forward.

Partners in HOPE are committed to providing the necessary tools and environments allowing children to believe that they are not defined by their past experiences and that they have the power to shape their own future. **HOPE is a powerful thread running through everything The Child Advocacy Center of Greater Rochester (The CAC) does.**
